

We are you, now become one of us

Members of Norfolk Fire-Rescue have served, or are serving, in every branch of the armed services. We consider the military to be a valued resource of knowledge, experience, and maturity. Making the transition from military uniform to Firefighter uniform is an easy one since the department is a quasi military organization. Former military members are familiar with things like chain of command and teamwork, all of which are prevalent in Norfolk Fire-Rescue. We actively recruit members who are transitioning out of military service. We are at the Transition Assistance Program located at Norfolk Naval Base every Tuesday and Thursday from 11:30 to 1:30. Please stop by and speak with one of our Recruitment Team members.

So, if you are ready to continue the challenge, the camaraderie, and public service, contact the recruiting office today!
